Management's Responsibility for Financial Reporting

The accompanying consolidated financial statements of Chippewas of Saugeen First Nation and all the information in this report are the responsibility of management and have been approved by the Chief and Council.

The consolidated financial statements have been prepared by management in accordance with Canadian public sector accounting standards for local governments based upon recommendations of the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants. Financial statements are not precise since they include certain amounts based on estimates and judgments. When alternative accounting methods exist, management has selected those it deems most appropriate in the circumstances, in order to ensure that the financial statements are presented fairly, in all material respects.

The First Nation maintains systems of internal accounting and administrative controls, consistent with reasonable cost. Such systems are designed to provide reasonable assurance that the financial information is relevant, reliable and accurate and the First Nation's assets are appropriately accounted for and adequately safeguarded.

The First Nation Chief and Council is responsible for ensuring that management fulfills its responsibilities for financial reporting and is ultimately responsible for reviewing and approving the financial statements. Council carries out this responsibility principally through its Full Council.

The Chief and Council, composed of Band members, reviews the First Nation's financial statements and recommends their approval. The Council meets periodically with management, as well as the external auditors, to discuss internal controls over the financial reporting process, auditing matters and financial reporting issues, to satisfy themselves that each party is properly discharging their responsibilities, and to review the financial statements and the external auditor's report. The Chief and Council also approves the engagement of the external auditors.

The consolidated financial statements have been audited by BDO Canada LLP in accordance with Canadian generally accepted auditing standards on behalf of the Members. BDO Canada LLP have full and free access to the Chief and Council of Chippewas of Saugeen First Nation.

Independent Auditor's Report

**To the Chief, Council and Members of
Chippewas of Saugeen First Nation**

We have audited the accompanying consolidated financial statements of Chippewas of Saugeen First Nation, which comprise the consolidated statement of financial position as at March 31, 2014, and the consolidated statements of operations and accumulated surplus, changes in net financial assets, cash flows, and funds held in trust in Ottawa for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of Chippewas of Saugeen First Nation as at March 31, 2014 and the results of its operations and cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Use of Estimates

The preparation of financial statements in accordance with Canadian public sector accounting standards requires management to make estimates that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

The principal estimates used in the preparation of these consolidated financial statements are the determination of the allowance for doubtful accounts, inventory costing and obsolescence, estimated useful life of capital assets, and valuation of capital assets and solid waste landfill liability. By their nature, these estimates are subject to measurement uncertainty and actual results could differ from management's best estimates as additional information becomes available in the future.
