

# Saugeen First Nation

## Administration

March 28, 2018

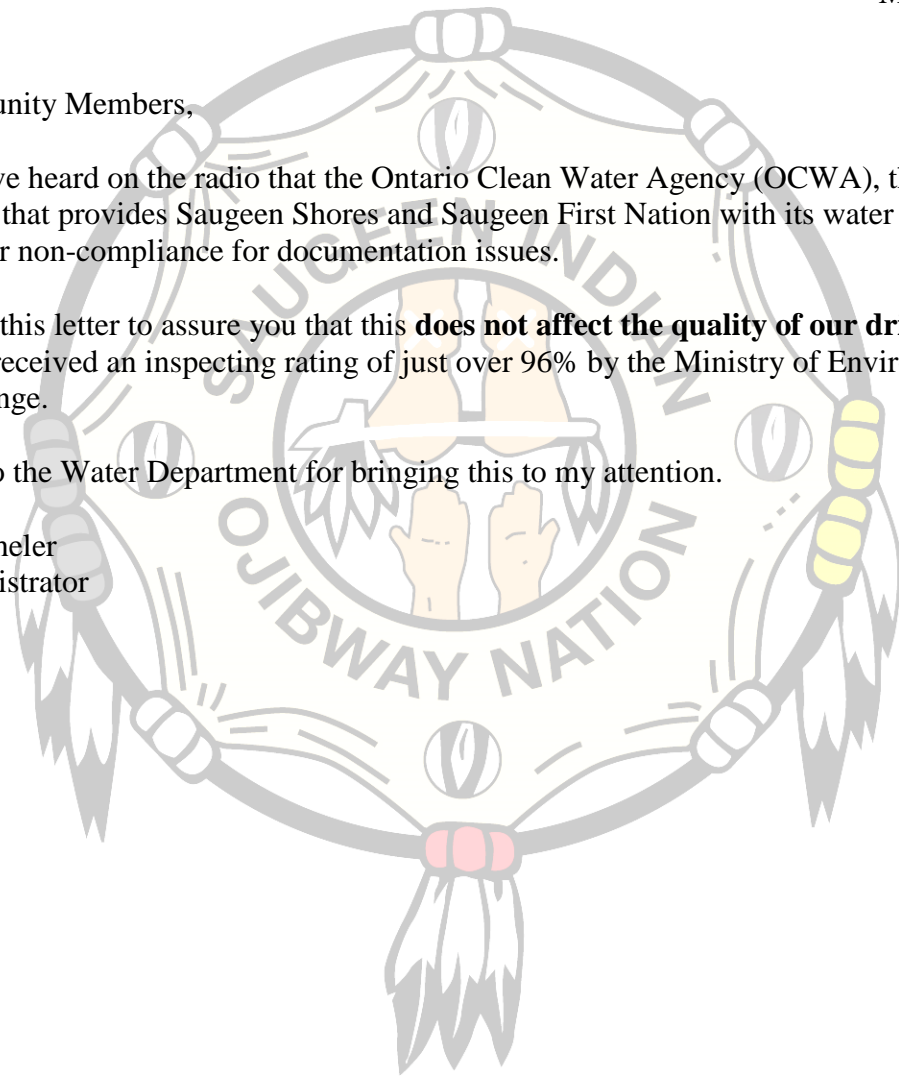

Dear Community Members,

You may have heard on the radio that the Ontario Clean Water Agency (OCWA), the organization that provides Saugeen Shores and Saugeen First Nation with its water service, has been cited for non-compliance for documentation issues.

I am writing this letter to assure you that this **does not affect the quality of our drinking water.** OCWA has received an inspecting rating of just over 96% by the Ministry of Environment and Climate Change.

Miigwetch to the Water Department for bringing this to my attention.

Cheree Urscheler
