

SON COMMUNITY MEMBERS

Re: Contracting and Business Opportunities at Bruce Power

The Saugeen Ojibway Nation Joint Chiefs and Councils and Environment Office staff are ramping up engagement with Bruce Power to ensure that SON members and businesses benefit from the available contracting and business opportunities at Bruce Power on a preferred basis.

We are currently reviewing all contracting opportunities to attempt to secure special access for SON businesses and members.

Initial information meetings will be held in each of Saugeen and Nawash:

October 18th 5:30 PM – 8:00 PM: Nawash Economic Development Office
(dinner will be provided)

October 22nd 5:30 PM – 8:00 PM: Saugeen Employment and Training Center
(dinner will be provided)

Business owners and interested community members are invited to come and tell us about your business/business interests. Following this first meeting, we will provide more information on **available contracting opportunities**, the processes to secure contracts, and the support that can be provided to help ensure success.

Please contact Kathleen Ryan at the SON Environment Office if you are interested in attending or would like more information about the Bruce Power Contracting and Business Opportunities Meeting for SON Members.
