Invitation to OPG Community Engagement Sessions

Dear member of Saugeen Ojibway Nation,

I am reaching out to invite you to a series of Community Engagement sessions, at which Ontario Power Generation (OPG) hopes to meet with members of Saugeen Ojibway Nations (SON).

The purpose of these sessions, which began this month and continue through June, is to help SON members make an informed decision on the proposed Deep Geologic Repository (DGR) for low- and intermediate-level radioactive waste.

You may have already seen a letter from OPG's Chief Executive Officer, Jeff Lyash, who wrote to SON members last month, reaffirming our 2013 commitment that we will not proceed to build the DGR at the Bruce site without SON support.

As Jeff's letter stated, "OPG respects SON's rights and interests in its traditional territory, including your interest in preserving your physical and cultural heritage. We believe we share your values regarding good stewardship of the environment."

Attached please find a schedule of the OPG sessions, being held at both the Nawash and Saugeen communities, as well as Toronto and other communities around Southwestern Ontario. No RSVP is required. Refreshments will be provided. You can also find information online at www.opg.com/son.

We hope that you and many other SON members can attend at least one of these sessions. I look forward to meeting you there, and to answering your questions about nuclear waste management and the DGR.

Yours sincerely,

Lise Morton,
Vice President, Nuclear Waste Management
Ontario Power Generation
