

## ***“Finding the Warrior Within”***

**Mike Scott** presents a powerful power point presentation, ***“Finding the Warrior Within”*** which is based on the obstacles of his life. His story has been presented to over 450 communities in the past 5 years alone (2013-2019). Mike was in and out of the foster care system and never had a stable upbringing as a child; He has been through many obstacles in his short 30 years of life including incarceration at the age of 12, over dosing at the age of 17, becoming a single father at the age of 19 and tragically losing his mother at the age of 22. Mike has broken the dysfunctional cycles that have plagued his family for years. He now travels and shares these incredibly powerful stories, as a way to show youth and adults alike that positive change is possible! Benefactors from this presentation show the reality of addiction and motivate people to open their own eyes to the cycles they face. Empowering young people to start becoming their own leaders and paving a positive way for future generations. Inspiring adults to want a brighter future for their youth and giving them the tools necessary to be able to relate and understand from their point of view so that they may work together to build a brighter future.

### **Mike’s message is:**

*“You can live a life full of depression if you want to, or you can change your position by changing yourself and learning to love who you were truly destined to be. Nothing is impossible and nothing is out of reach, only you can put a limit on what u need and deserve in this life. So be kind to yourself and have faith in a brighter day! Life is what you make of it”*
