

Saugeen First Nation Weekly Vaccine Update

VACCINATION STATISTICS AS OF MONDAY, NOV. 29TH

- 73% of the reserve's population has received their first dose
- 68% of the reserve's population has received their second dose
- 22% of the reserve's eligible population (2nd dose at least 168 days ago) has received their third dose

These numbers have been adjusted to account for the vaccine administration error that occurred within the community
